

BY AUTHORITY.

Tenders Wanted.

Tenders will be received at the Attorney General's office till 12 o'clock noon on Monday, the 30th day of November, 1896, for furnishing the Oahu Prison for one year beginning on Tuesday, the 1st day of December, with the following supplies at such times and in such quantities as may be required.

The Marshal or such other officer as he may designate will make the requisitions, and all supplies will be subject to his inspection and approval.

The contractor will be required to furnish suitable bond for the faithful performance of his contract.

All tenders must be distinctly marked "Tenders for Supplies, Oahu Prison."

The Attorney General does not bind himself to accept the lowest or any bid.

W. O. SMITH,
Attorney General.

Attorney General's office, Nov. 26, 1896.

SCHEDULE.

Poi, per lb.

SUGAR PRODUCTION.

In yesterday's issue an official comparative statement of the last two sugar crops was given which was prepared by Professor Maxwell, conductor of the Experiment Station of the Hawaiian Sugar Planters' Association. It showed the handsome increase of nearly 74,000 tons of sugar from less than 56,000 acres under cultivation. There was also shown the gratifying increase of 1676 lbs. of sugar to the acre cultivated. Had the production to the acre been the same for the last crop as the previous one, the increase in total yield would have been but about 27,000 tons instead of 74,000 in round numbers. This representation proves that the planters and millers had a respectable undeveloped margin formerly, in methods of cultivation and manufacture, to operate upon as an offset to possibly drooping markets or adverse legislation in the United States. None knew the existence of this margin better than the sugar producers, who for many years had been toiling in the school of experience—at the same time utilizing to the full the benefit of mutual consultation and comparison of notes in every branch of the industry—to obtain the best possible results from their investments of capital, brains and energy. Each large estate or mill had its own scientific and mechanical experts, and superintendents themselves had in many years acquired no small degree of expert knowledge. Yet the experience gained

on one description of soil and in one set of climatic or rather meteorological conditions—topographical features of lands being also a differential factor in creating examples—did not prove to fit the case of every plantation in corresponding questions of soil, meteorology and topography. It was a decidedly advanced step that was taken therefore, in the line of mutual self-help, when the planters' organization resolved to establish one central station for the determination, by scientific appliances and methods, under competently skilled direction, all the varied questions of agricultural and manufacturing modes of operation. The Experiment Station seems to have proved the most profitable object of mutual investment the sugar planters of Hawaii have ever agreed upon, and the scientific gentleman placed at its head as happy a selection for the position as could have been made. At least that is the judgment to be formed upon results thus far achieved. Many people may open their eyes in wonder, in view of popular talk, at the small average of a little more than four tons of sugar to the acre. When it is known that some of the virgin soil cultivated has yielded eight and nine tons, the fact that the average all over is only one half such results would indicate that the Hawaiian sugar industry is the very contrary of being debilitated. It has prospered, on the whole, at this low average, and the prospects are for a great gain all in average production. Throughout the greater part of the area it occupies it must have a vitality capable of withstanding more unfavorable experiences and severe shocks than it has ever yet sustained. Even the national bugbear of contract labor may before very long be conceded as being not indispensable to the life of the chief industry of the Hawaiian Islands. From the scientific basis on which the producers have now placed their interest, even greater gains than those exhibited in last crop report may be expected. Plantations and mills have in numbers been awaiting the outcome of successful concerns in the van of progress, and, with the results before the eyes of their owners which cannot be gainsaid, those waiting ones will now adopt the most improved methods in every branch of production. Next year's comparative statement may therefore be expected to be as satisfactory as that just published.

Footballers should remember that victory is not worth the price of broken limbs and disfigured countenances. Exhibit agility, strength, and pliancy of foot, rather than the rude shocks of bodily avoirdupois in collision. The spectators will be better pleased.

All other nationalities will doubtless proffer kindly sympathy to the Portuguese residents in establishing their national independence day on this hospitable soil.

Wheel scorches are liable to start the next chapter of accidents. They are as much a menace as the horse demijohns of Saturday afternoons.

Honolulu should encourage its rising exponents of the fine arts.

Sound Bones

And healthy bodies are a fortune within themselves. Money can't buy them, thieves can't steal them, but having them, all can preserve them, by drinking Rainier Beer. It's brewed of finest hops and malt and is absolutely pure. On tap or in bottles at the Criterion Saloon.

JUDGE AND JURY.

Two Judges Occupied—Another Poor Case Heard.

Before Judge Perry:
Manuel Reis vs. Kahalepaakai and Leong Cheu, rejection. Verdict for plaintiff, one juror dissenting. Notice of motion for new trial given.

Guardianship of Sam Kalama and Kamala, minors. Guardian is granted authority to sell real estate under \$480 bond. Robertson for petitioner.

Republic vs. Houghtailing. Liquor selling without license. Continuance is granted on ground of absence of material witness. To which Creighton & Correa for defendant file exceptions.

Jas. A. King, Minister of Interior, vs. Charles R. Bishop and others. Condemnation of property for public uses. Demurrer of defendants argued and submitted. L. A. Dieck for plaintiff; S. M. Ballou for one of defendants.

Pang Lum Mow vs. Pang Lum alias Ning Pang Lum. Assumpsit. Judgment for plaintiff. Humphreys for plaintiff; no appearance for defendant.

Before Judge Carter:
G. K. Kaiopahia vs. Kuna. Ejection. Still on from yesterday.

Jas. A. Hopper vs. John F. Colburn, assignee in bankruptcy of Henry F. Poor, and Harry Cannon and Charles T. Gulick. Bill in equity foreclosing mortgage. Court authorizes the assignee to sell the dairy and stock ranch in question for \$22,000 at private sale, pay mortgagee the \$17,000 due him, and deposit \$2500 in Court to await final decision in Cannon vs. Poor. Thurston & Stanley for plaintiff; C. Brown for assignee; Magoon for Cannon.

In the matter of estate of Julia K. Campbell. Alexander J. Campbell appointed administrator under \$2000 bond. W. O. Smith for petitioner.

Account of W. F. Wilson, receiver of estate of Akana, deceased, referred to Li Cheung, Chinese interpreter, as master for report.

In the Supreme Court:
Geo. W. Macfarlane vs. John A. Cummins and William G. Irwin. Bill for specific performance. Plaintiff by his attorneys, Thurston & Stanley, files discontinuance of appeal.

You Are in Need of a Time Piece . .

You cannot make up your mind what kind to get; it bothers you, because every one has an opinion of his own as to the best make. Let us suggest something to you.

When a watch is backed by a responsible house, money backed, so guaranteed that if the slightest defect is found, your money is returned, or another watch is given in place, should you worry as to the kind to get?

A watch is made to keep time, the one coming the nearest to being correct is the one of most worth. It matters not if it cost Ten Dollars or a Hundred.

The matter of expensive cases is left entirely to your taste and the length of your purse.

As Agents for the high grade "Elgin" and the medium priced "Waterbury" both makes of which there is an endless variety, we are enabled to offer an unusually large assortment of complete watches, and at prices far below former rates.

Guaranteed Watches From \$3.00 Up.

All made to run, and run well.

H. F. Wichman

Timely Topics

A GOOD THING.

Do you know a good thing when you see it? Some people do and some don't, but those who tumble to it are bound to get ahead in the race for wealth. We can put you on to a thing or two. Just now we want you to

GIVE YOUR HORSE A TREAT.

Remember he is your best friend and if you treat him well and feed him well, he will do more work and better work, besides looking as a noble equine ought to look.

"THE NATIONAL FEED BOX"

will work a complete metamorphosis in the condition and the appearance of your horse. It is a circular shaped vessel, made of cold rolled steel, finely galvanized, with a Malleable Iron Side Rod, each box furnished complete with a Japaned Wrought Iron Holder, Plate and Screws. This feed box has the advantage that you can put it up anywhere in the stall or box, does not waste a particle of the feed, will always be sweet and clean, and is especially desirable where a horse is inclined to

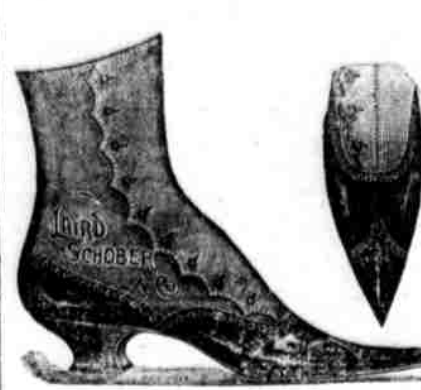

BOLTING, SLOBBERING OR SCATTERING.

It saves feed bills at a rate of from 25 to 30 per cent. Saves Doctor's bills by preventing indigestion, colic and stomach troubles. Saves hostler's time, trouble and vexation. It pays for itself in a few weeks, and no Stable is complete without it. They come in 3 sizes, capacity 6, 8 and 10 quarts, and the price is within the reach of everybody owning a horse. We would especially call the attention of managers of Livery Stables to this new device. It will pay you the trouble to come and inspect them.

FOR SALE BY

THE Hawaiian Hardware Co. LIMITED,

Opposite Spreckels' Bank,
NO. 307 FORT STREET.

Nothing
but
Shoes

That's all we have to talk about. We have Sporting Shoes made by specialists; Dress Shoes, Slippers and Boots for Ladies and Gentlemen designed by artists. Shoes that fit make pretty feet, all we need care for is to keep at the head of the procession and this we are doing most magnificently by selling as good shoes as any body else, and selling them for the most part at lower prices than the other fellows.

W. W. DIMOND'S

Men and women are but older children and enjoy receiving gifts quite as much as the little tots. Some mothers and wives enjoy baubles; others of a more useful turn of mind appreciate something for the table or the home generally. We have heard of ladies who hung up their stockings, expecting to find a box of bonbons in it on awakening, but instead were gratified to find a set of French China. We do not advise this, because, unless it is especially strong, the stocking is apt to be injured.

We received ex Miowera an invoice of the finest Royal Worcester Ware ever brought to this country. The cases will be open on Monday and the goods ready for your inspection.

On the S. G. Wilder, almost due, we have \$5,000 worth of American cut glass, suitable for everyday use, and a new assortment of Onyx tables and piano lamps combined. Also five o'clock teas and chafing dishes in new designs. And on the 24th via Sydney, we will have an invoice of French China in three new designs. Also a number of pieces of statuary.

We are ready for Christmas.
